

Photo Captures by Jeffery

Bringing joy and happiness to lonely and depressed walls across the nation with wonderful unique photography.

Photo Captures by Jeffery is where you will experience artistic photography of beauty, as seen through my eyes.

I create photo captures of the world around me. I also specialize in Pet Photography in the Nashville Middle TN area. Nature speaks to me as I explore parks, zoos and local green-ways. I enjoy discovering works of art made by human-hands in old cemeteries, roadways and architectural wonders.

Thanks for your interest in me and my work. I hope that Photo Captures by Jeffery will inspire you, your family and friends enough to want your residential or commercial walls brought alive with my work!
